A CAMMS College

Project Management

Course for Specialists

www.cammscollege.com

 online  01 day  face to face

Overview

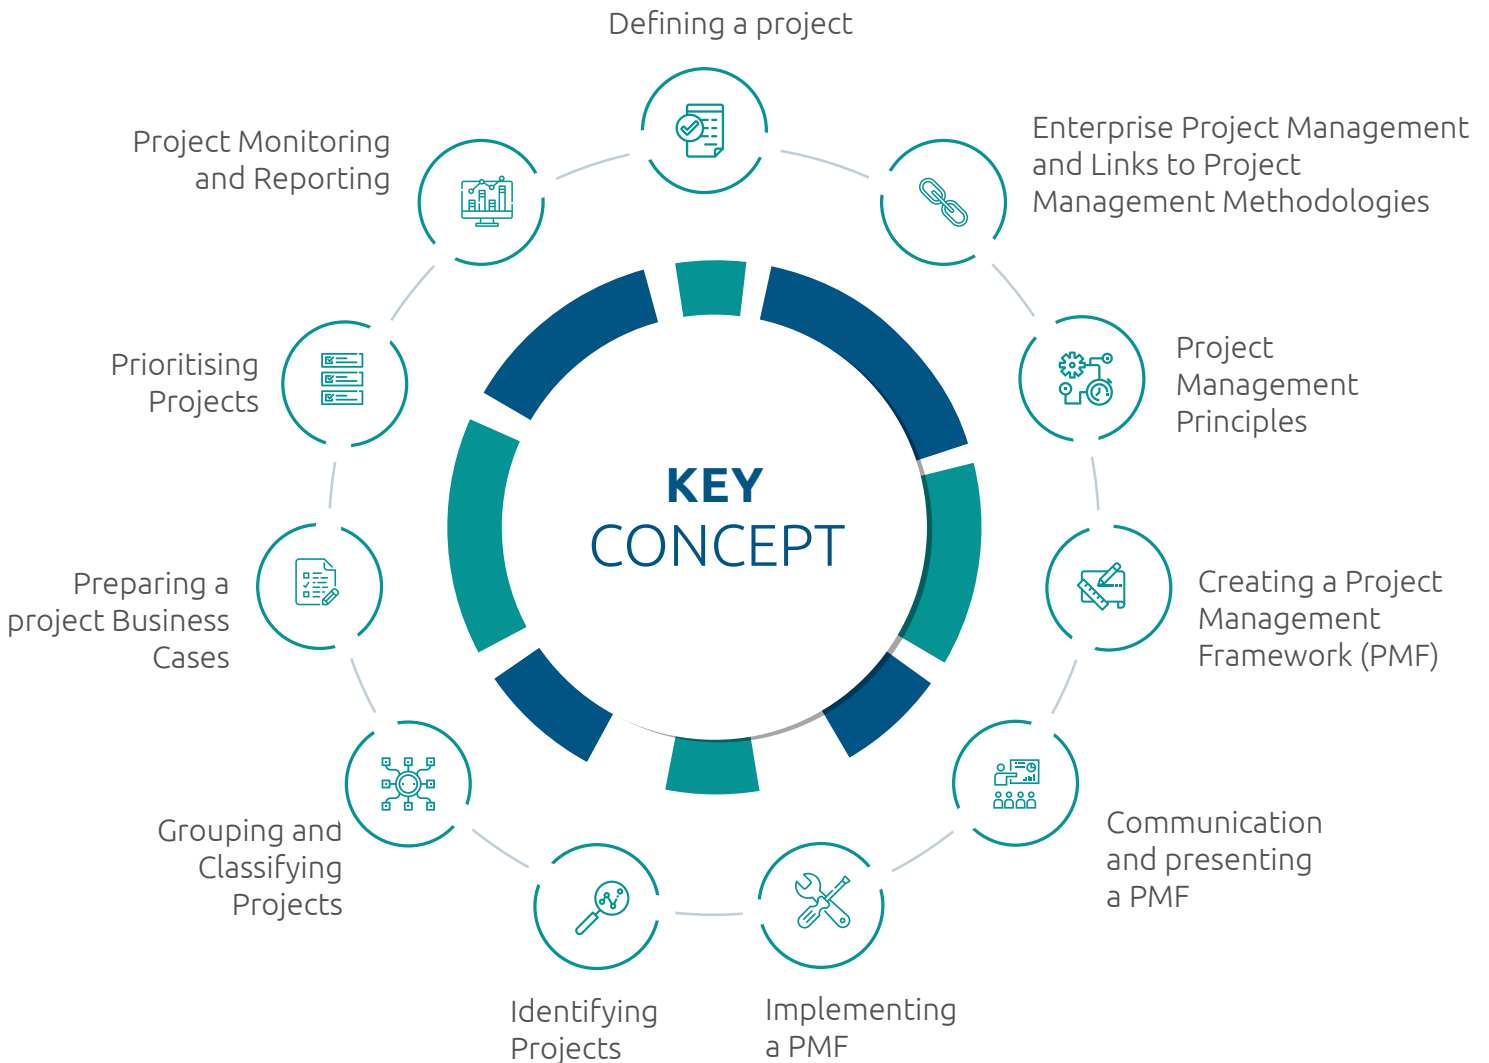

This one-day course is suitable for aspiring project managers or people who work in a project-based organization and would like to have the knowledge, tools and techniques to effectively manage projects.

Gain essential skills, while also enabling a path for higher-level project management qualifications. We will cover techniques and tools required in planning, implementing and monitoring project scope, cost, project lifecycle, work breakdown structure, project scheduling, risk management and more.

Key Concepts

Key concepts that participants will cover during this course include:

Delivery Mode

online

01 day

face to face

Onsite or in the CAMMS classroom

Studying with others in a classroom setting allows a collaborative approach to learning with other like-minded people.

OR

We understand the importance of being able to deliver our courses online and allowing accessibility, while still offering a supportive learning environment
