---

 online  01 day  face to face

# Overview

This one-day course is excellent for anyone who may have limited risk management experience, as well as more experienced risk management users who are looking for a refresher on various aspects of their enterprise risk management approach.

Today's organizations are looking at more efficient ways to identify, assess, review and report on risks at any level. We will cover how best to utilize smart software tools to achieve this.

## Key Concepts

Key concepts that participants will cover during this course include:

## Delivery Mode

online

1-day session

face to face

Onsite or in the CAMMS classroom

Studying with others in a classroom setting allows a collaborative approach to learning with other like-minded people.

### Online

We understand the importance of being able to deliver our courses online and allowing accessibility, while still offering a supportive learning environment.

## Additional Information

Course Fee: **USD 1600**

This course is aligned to the AS/NZS ISO 3100:2009 Risk Management – Principles and Guidelines and combines the theory with the practice in an organizational context.
